The Sustainable Canadian Agricultural Partnership (Sustainable CAP) brings together federal, provincial and territorial governments with a $3.5-billion, 5-year agreement to strengthen and grow Canada’s agricultural sector.

The Sustainable CAP builds off the success of previous partnerships, and includes an additional $500 million in funding to support programs cost-shared between the federal and provincial/territorial governments.

The Sustainable CAP marks an ambitious path forward to advance 5 important priorities that will increase the competitiveness, innovation and resilience of our agricultural sector:

- Building sector capacity, growth and competitiveness
- Climate change and environment
- Science, research and innovation
- Market development and trade
- Resiliency and public trust

The Sustainable CAP runs from April 1, 2023 to March 31, 2028.

FEDERAL PROGRAMS

**Growing trade and expanding markets**
- **AgriMarketing**
  - Helps industry expand exports and seize new market opportunities

**Innovative and sustainable growth of the sector**
- **AgrilInnovate**
  - Supports commercialization, demonstration and adoption of innovative technologies and processes

**Supporting diversity and a dynamic, evolving sector**
- **AgriDiversity**
  - Helps underrepresented groups participate in the sector

- **AgriCompetitiveness**
  - Helps industry share information with producers to build capacity and support the sector

- **AgriScience**
  - Accelerates the pace of innovation by providing funding and support for pre-commercial science activities and research that benefits the agriculture and agri-food sector and Canadians

BUSINESS RISK MANAGEMENT PROGRAMS (BRM)

BRM programs provide agricultural producers with protection against income and production losses, helping to manage risks that threaten the viability of their farms

- **AgriStability**
  - Provides support when producers experience a large margin decline

- **AgrilInvest**
  - Provides cash flow to help producers manage income declines

- **AgrilInsurance**
  - Offers cost-shared insurance against natural hazards to reduce the financial impact of production or asset losses

- **AgriRecovery**
  - A disaster relief framework to help producers recover from natural disaster events
