

AFRICAN SWINE FEVER ECONOMIC IMPACT

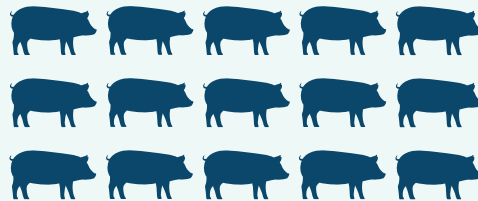

AFRICAN SWINE FEVER POSES A SIGNIFICANT RISK TO THE
CANADIAN PORK INDUSTRY AND THE CANADIAN ECONOMY

A WORLD SUPPLIER OF PORK

Canada is the third-largest pork exporting country in both value and volume and represents about 20% of world pork trade.

CANADIAN PORK IN WORLD DEMAND

In 2017, over 1.2 million tonnes of pork, valued at \$4 billion, was exported to over 100 countries.

TOP THREE MARKETS FOR CANADIAN PORK:

- 1) United States
- 2) Japan
- 3) China

CANADIAN PORK – AN ECONOMIC ENGINE

The pork industry contributes 103,000 direct and indirect jobs that, in turn, generate \$23.8 billion when farms, inputs, processing and pork exports are included.

EVERYONE HAS A ROLE TO PLAY IN REDUCING THE RISK OF ASF

- On-farm biosecurity is key to helping prevent diseases from developing and spreading.
- Careful sourcing of animals, products and by-products, including feed and feed ingredients is important.

If you have been abroad and visited a farm or have come in contact with any wild animals, you should wait 14 days to visit any farm in Canada.
