

Our scientists at **AGRICULTURE AND AGRI-FOOD CANADA** are **OUTSTANDING** in their fields

WHAT DO THEY DO?

Their goal is simple – making sure the foods you eat are safe, high quality, and produced in sustainable ways.

DR. JULIE BRASSARD

Research Scientist –
Food and Environmental Virology

📍 Saint-Hyacinthe, Quebec

DR. JOSÉ RAMÓN ÚRBEZ-TORRES

Research Scientist –
Plant Pathology

📍 Summerland, British Columbia

DR. HELEN TAI

Research Scientist –
Plant Genetics and Genomics

📍 Fredericton, New Brunswick

They conduct about **half** of all **agriculture related research in Canada**.

They work at **20 research centres** across the country.

They use **climate-controlled growth chambers**, facilities for **insect production**, **weather-monitoring stations**, and even a **small winery**.

They help farmers improve and protect their crops and **produce food for Canadians in an environmentally friendly way**.

We cover a lot of ground.
